

CYBER CHALLENGE 2015

A Science, Technology, Engineering and Mathematics Capture the Flag Competition

WHO:

High School and Undergraduate College Students

WHEN:

September 11-12, 2015

Where:

Everywhere across the Internet!

In support of STEM outreach, MITRE and (ISC)²® are hosting the annual national Capture the Flag (CTF) competition. High school and undergraduate college students will have the opportunity to compete in cybersecurity challenges to gain real-life experience and win national coverage to make a huge impact.

Learn: Fundamental cyber knowledge by using online resources from (ISC)²®.

Understand: Binary exploitation, Web exploitation, forensics, cryptography, and so much more!

Practice: Using Web resources and training challenges powered by the MITRE Cyber Academy™.

Compete: Against students in high school and undergraduate universities across the nation.

Win: College scholarships, SSCP® Exam vouchers, priority consideration for a cyber internship, and other prizes.

Notable industry and academic experts have partnered together to design rigorous challenges for students to solve. Competing in teams of four, students will gain the necessary tools to compete in the nationwide competition.

Winning teams will have the opportunity to receive a college scholarship, vouchers to take the SSCP® Exam, as well as early regard for MITRE's Industry Partner Cyber Internship program*.
