

Cyber Challenge 2013

A Science, Technology, Engineering, and Mathematics
Capture the Flag Event

Train

Web resources and training challenges powered by the MITRE Cyber Academy™

Learn

Binary Exploitation, Web Exploitation, Forensics, Cryptography, and more

Compete

Against other students in high school, college, and MITRE interns

Win

\$1,000 College scholarships, Systems Security Certified Practitioner (SSCP) exam vouchers, and priority consideration for a MITRE Cyber Internship

| Mandatory Team Captain Debrief | 07/24 |
| CTF Competition | 07/26 – 07/27 |

Cyber Challenge 2013 – A Capture the Flag Competition

SPONSORS: THE MITRE CORPORATION AND (ISC)2

In support of the Science, Technology, Engineering, and Mathematics (STEM) initiative, MITRE and (ISC)2 will be hosting a national Capture the Flag (CTF) Competition. The virtual competition gives high school and college students the opportunity to compete against their peers in cyber security challenges. Teams of four will work together to solve problems in steganography, software exploitation, computer forensics, cryptography, and networking.

To Participate

Registration is now open. Applications must be completed by June 27. Visit <http://register.mitrestemctf.org> for more information and to complete the application form.

Kick-off Event

A kickoff web conference is scheduled for June 28. Participants will learn more about the competition, review rules, and discuss the virtual training and practice sessions that teams can use to prepare for the competition.

Competition Days

The CTF competition will take place on July 26 and 27. The 24-hour virtual competition will start at 3:00 PM EDT on July 26 and end at 3:00 PM EDT on July 27. A winning team will be declared at the end of the event. The team will receive four \$1,000 college scholarships, vouchers to take the SSCP exam, and receive early consideration for participation in MITRE's Cyber Internship program.*
